### Our recommended watch Back To The Future

This feel-good, funny, escapist film from 1985 is exactly what we all need right now - whether we're watching it for the umpteenth or first time! The central character is Marty McFly, a 17 year old high school student, who accidentally travels thirty years into the past in a time-travelling DeLorean car, invented by his eccentric scientist friend Emmett "Doc" Brown. This is a wonderful classic for both adults and children.
